

## PRODUCTS

### VYTRAN systems, accessories & consumables including:

- FAS fully automated fusion splicing workstation
- GPX-3400 fusion splicing & glass processing platform
- FFS-2000 integrated filament fusion splicing workstation
- LFS-4000 standalone filament fusion splicing system
- PTR-200 optical fiber recoater and proof tester
- LDC-400 Optical fiber cleaver
- SAS-200 hot acid stripping system

### MICRON OPTICS products including Fiber-Bragg Grating optical sensors, filters and interrogators:

- FBG Accelerometers
- FBG Strain and Displacement Sensors
- FBG Temperature Sensors
- FFP Tunable Filters
- Swept Lasers
- Optical Sensing Interrogators

### SANTEC products including:

- TSL High Performance Tunable Lasers
- OFT Optical Tunable Filters
- PEM Polarization Extinction Ratio Meters
- ODL Optical Delay Lines
- OVA Variable Optical Attenuators
- OCT - Optical Coherence Tomography Systems
- Calibration & accessories

### REDFERN INTEGRATED OPTICS products including:

- Narrow linewidth lasers and modules

### NOVAWAVE TECHNOLOGIES products including:

- Mid-Infrared Lasers
- Fiber Laser Products
- Instruments
- Fiber Component Products
- Cavity Ringdown Components

### NEPTEC Fiber Optic Cleaning Products including:

- Cletop Cassettes and Reels
- Optipop Cassettes and Reels
- QuikSwipe 2TM Cards

### CHIRAL PHOTONICS Helica products including:

- Polarizers
- Couplers
- High Temperature Sensors

### YENISTA OPTICS products including:

- Tunable laser sources, filters, switches, component testers
- Fiber Optic Assemblies
- Repair & Calibration Products

## ABOUT ENGINEERS ENTERPRISE

Engineers Enterprise Pty Ltd (EEPL) is a distributor and value-added reseller, specialised in sourcing fiber optic components and systems.

We started business in 1999 and are based in Sydney, New South Wales, Australia. We work with customers in Australia, New Zealand and India.

We provide total fiber optic solutions to our customers, including installation and training. We also offer consulting to photonics companies and conduct workshops in the photonics area.

*We partner with leading manufacturers throughout the world.*

### IN THE USA

- Vytran LLC
- Micron Optics, Inc
- Redfern Integrated Optics, Inc
- NovaWave Technologies, Inc
- Chiral Photonics, Inc
- Neptec Optical Solutions, Inc

### IN JAPAN

- Santec Corporation

### IN FRANCE

- Yenista Optics S.A.

---

## OUR SERVICES

Engineers Enterprise has over 20 years of experience in solving photonics and fiber optics problems. We share the knowledge we have gained with our customers, providing consulting services.

We also train people to use photonics equipment and handle fiber.

We have a Service Center to support customers in India.

We provide competitive pricing, acceptable lead times and speedy replies to enquiries.

**MICRON OPTICS SI730 OPTICAL SENSING INTERROGATOR**

**MICRON OPTICS FIBER FABRY-PEROT TUNABLE FILTER AND CONTROLLER**

**SANTEC OPT 350 MANUAL WAVELENGTH TUNABLE OPTICAL FILTER**

**REDFERN INTEGRATED OPTICS RIO GRANDE HIGH POWER SINGLE FREQUENCY LASER MODULE**

**NOVAWAVE TECHNOLOGIES IRIS 1000 DFG-BASED MID-INFRARED LASER SYSTEM**

**VYTRAN LFS 4000 LARGE DIAMETER FIBER SPLICER**
